

EATTO

Your packaging recycling guide 100% recyclable or compostable

Meal Box

Made of corrugated chipboard to protect your meals in transit, they can be recycled or reused and are made using 70-80% recycled material.

How to dispose

Place it in your recycling bin.

Woolcool lining

Specially engineered Woolcool lining that is 100% natural and compostable, to keep your food frozen on its way to you.

How to dispose

Rip the plastic film and dispose of it in your recycling bin and place the wool in your compost bin.

The Sleeves

Our sleeves are fully recyclable.

How to dispose

Place it in your recycling bin.

Tray & Film

At the moment, we use a mix of plastic and compostable trays. The plastic trays (grey) are fully recyclable and the compostable trays (white) are fully compostable.

How to dispose:

Place the tray and film in the compost bin or recycling bin. Ensure the plastic trays and clean and dry before recycling.

Welcome Letters

These cards are made of paper and can be recycled along with the box.

How to dispose

Place it in your recycling bin.

Gel Packs

These gel packs are made using recyclable plastic material and are 100% safe for food use.

How to dispose

Recycle the plastic from the pack and bin the gel once done. Don't try to pour the gel down the sink, as it could block your drains.
